RACOONS FINANCIAL SERVICES CC

THE COMPANY

ABOUT US

Established in 2019, Racoons Financial Services CC embarked on a transformative journey in the Namibian financial landscape. While our official registration marked our commitment to the sector, it wasn't until 2 October 2023 that we fully commenced operations, ensuring we had the right tools, strategies, and people in place to serve our clients effectively.

The inception of Racoons was driven by a clear observation: a significant gap existed in the way financial services were offered to individuals in Namibia. Traditional methods often left potential borrowers feeling overwhelmed and underserved. We aimed to change that narrative.

Under the guidance and supervision of NAMFISA, Racoons stands as a beacon of innovation and client-centric services. Our team, comprising financial experts and visionaries, is dedicated to redefining the lending process. We believe in flexibility, understanding that not every loan application can be boxed into conventional categories. As such, our approach is tailored, focusing on the individual needs and available information of our clients.

This commitment to adaptability and excellence has been our guiding principle, enabling us to forge strong bonds with our clients and ensuring they receive the financing they need without unnecessary hurdles.
